By John Flora  
My parents took me to Yellowstone National Park the summer I turned 10 in 1955 and one of the things that stuck in my Indiana boy's memory was the experience of eating off of Wallace china in restaurants in the West. I was fascinated by the cattle brands and thought it was the coolest dinnerware I'd ever seen. I stumbled across it on Ebay about 20 years ago and have been collecting, off and on, ever since. I recently bought Corinne Joy Brown's book and discovered several other lines of western dinnerware hitherto unknown to me. Needless to say, this discovery is going to cost me a lot of money since I'm now jonesing for stuff from Tepco, Shenango, Hartstone, Vernon Kilns, and on and on. And, of course, I'm now scanning Ebay and area flea markets for kids' dinnerware featuring my childhood favorite, Hopalong Cassidy. The design of the book is exquisite with hundreds of spectacular color photos of items from the author's collection as well as from other collectors. I pick it up and page through it almost every day and visitors to my home who have no particular interest in western dinnerware can't put it down. If you like western-themed stuff, you owe it to yourself to buy this book.

Awesome book on Western Plates... I have collected over 35 years too... I

only wish she had prices on value. Beautiful display of pictures and written history. A must have if you are a collector. I bought this on the road with our RV a lady told me about it in Quartzite Arizona... WOW! Loved it so much... I ended up going to most of the antique shops on our travels to Tombstone Arizona.... Bought 12 more plates to add to my collection.... Without this book... I would of never known.0 of 0 people found the following review helpful.
