Rick Mouzon : Die-Cast Car Collecting 101 Bumper to Bumper before purchasing it in order to gage whether or not it would be worth my time, and all praised Die-Cast Car Collecting 101 Bumper to Bumper:

0 of 0 people found the following review helpful. Too Much to Pay for this "Pamphlet"By bbaz1What a disappointment. This is more a pamphlet than a book, with large print, large empty margins, pictures that are more space fillers than informative and not even adequately described, and with all that "stretching", is still less than 100 pages. At \$13.00, this is WAY too much to pay for what you get. The first words of the preface indicate that the book

"... was written with the beginning collector in mind as well as the seasoned, veteran and returning collector." This publication may be ok for a quick overview for someone who has had little to no exposure to the hobby, but nothing new to a "seasoned, veteran or returning collector." In addition, most of the text relates to 1:64 scale models, which are essentially tiny Hot Wheel "toys", with only a passing reference to the larger, more common scales for actual die-cast model collectors including 1:43, 1:24 or 1:18. No reference to this very limited scope was included in the description of the book, which is a real error by omission, and is easily misleading. A quick search of the internet will provide much more valuable information as well as references to some very good magazines devoted to serious hobbyists. The only reason I gave this 2 stars instead of 1 is that the author did take the time to assemble the privately-published book, which does deserve some credit. 0 of 1 people found the following review helpful. Great Service By Cliff Bundy Great Product Very Fast Thank You 5 Star 0 of 2 people found the following review helpful. This is a wonderful book to understand a hobby not many people believe ... By JOE ALTIERI Rick is a personal friend and a knowledgeable guy! This is a wonderful book to understand a hobby not many people believe grown me collect.

The all-around tutorial on collecting die-cast toy/model vehicles! Buying, trading, selling and restoring/customizing.
