While other books depict mint or near-mint models, these photos reflect the purpose of their issue: play. A must for serious collectors who have or have had Dinky collections. Congratulations to Kim Sayer and Paul Atterbury for a wonderful collection.0 of 0 people found the following review helpful. Dinky Toys must be some of the most successful and collectable toys ever made. In an affectionate tribute, each model is given its own delightful setting, reflecting a more gentle and innocent era. Visual puns abound: The Landrover, “a fine model of a vehicle designed to go anywhere and do anything,” climbs its way up a staircase, while the Avro York Airliner takes off from the ironing board. An open-top sports car zooms along, fighting the gale-force winds of an electric fan.A sophisticated and stylish design book, this is the ideal gift for the postwar baby boomer.
