This is unfortunate as all armies that achieve any success, do so as a combined arms organization. Therefore, when a source such as 'Panzergrenadier Divisions, 1939-1945' becomes available, those with an interest in the German army of WWII should get it for a deeper understanding of how the German army as able to do what it did. Illustrated with detailed artworks of Wehrmacht vehicles and their markings with exhaustive captions and specifications, *The Essential Vehicle Identification Guide: Panzergrenadier Divisions, 1939–45* is the definitive study of the equipment and organization of Germany's motorized army divisions during World War II. Organized chronologically by division and formation date, the book describes in depth the various models of tank and other armored and soft vehicles in service with each panzergrenadier division, with listings of unit commanders, vehicle types and numbers and unit structure. Each divisional section is further broken down by campaign, accompanied by orders of battle, a brief divisional history of the campaign and any specific unit markings. Every motorized division is featured, including the elite Grossdeutschland and Fallschirmjäger Herman Göring divisions.
