Richard W. Helbock : Postmarks on Postcards before purchasing it in order to gauge whether or not it would be worth my time, and all praised Postmarks on Postcards:

Besides looking for a date or information about the scene on the front of the card, I never paid much attention to the back of the card. I then discovered that some collectors of cancels, stamps, etc cared more about the back than the front. It has numerous pictures, drawings, etc covering machine cancels, RPO, MOB, Doane cancels, etc. By using this book, and understanding more about the different cancels, I have been better informed when selling postcards and have realized increased prices because I've mentioned the cancels on the postcards.

200 page handbook is designed to provide both an introduction to all US postmarks of the 1900-1920 era and a reference for anyone wishing to learn more about postmarks and postmark collecting
