This is a heartfelt tribute to every doll ever made, no matter her beginnings, and to doll collectors everywhere. It's beautifully illustrated and the poetic verse evokes memories of that special doll that's never forgotten. It's sweet and a little sad and something every one of us can relate to. It reaffirmed my belief that I was born a doll lover and became a collector because I could not bear to give up my childhood 'babies'.0 of 0 people found the

following review helpful. A memory book for senior citizens and doll collectors as well as a catchy story for children. By Nathalie Goss Turner The story of a straw stuffed composition doll made before the WW1, it follows her adventures in poem with colorful illustrations. Child tested and found successful for little girls. A well constructed and printed little book that has become a treasure in our family.

This is a story, wonderfully illustrated and thoughtfully written as a poem, about the life of a composition baby doll. So many things change and yet it all comes back to the same. Love, Sharing, Learning, -Life! All written from the experiences of an antique doll.
