Susan S. Carey, Ryan M. Carey, Tara L. Carey : The Beanie Encyclopedia: A Complete Unofficial Guide to Collecting Beanie Babies before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Beanie Encyclopedia: A Complete Unofficial Guide to Collecting Beanie Babies:

0 of 0 people found the following review helpful. Two Stars
By Susie J It is so out of date it didn't help.
0 of 2 people found the following review helpful. Out of date
By Lex in VAI was looking for something to give me a more up to date value. This was current in 2001 or 2002.
1 of 2 people found the following review helpful. Good reference book
By steshe865 This is still a very useful reference book for identifying Beanie Babies and for identifying fake beanie babies as well. The price references are very outdated, which is to be expected considering when it was published. But, as a reference and identification book, it is still worth the price being asked for the book.

More than just another collecting book, "The Beanie Encyclopedia" is the most comprehensive and up-to-date identification and value guide available on these prized collectibles. From Alley to Zip, every one of these charming little creatures are described in informative text and pictured in nearly 400 color photographs.
