Best book on the marketBy cast iron addictUnlike steve (ca) review, this book is considered the "BIBLE" for cast iron collectors. While some discrepancy on some values in the book may be present, values on most items are completely accurate. It is unfortunate that the other review destroys the credibility of this fine book. The "BLUE" book is in its 4th Edition presently and is the most complete and accurate book on the market for Griswold collectors. This book and the "RED" book should be in every serious cast iron collector's resource library.

Cast iron cookware has been necessary equipment for a well-stocked kitchen since it first became available through

mass-production in the 19th century. These solid reminders of a bygone era--cornstick pans, griddles, Dutch ovens, gem pans, and teapots--can be displayed proudly and used everyday. With over 900 photographs documenting variations of shape, size, dates, moldings, finishes, hardware types, catalog numbers and markings, this book is much more than an encyclopedia; it is the definitive reference. This book contains comprehensive histories of the manufacturers Griswold, Wagner, Sidney Hollow Ware, Favorite, and Wapak, as well as patent lists for meticulous researchers. For the collector, this newly revised and expanded second edition reflects prices on today's market.

About the AuthorCollectors David Smith of Perrysburg, New York and Chuck Wafford of Portland, Oregon are two of the most respected authorities on cast iron cookware.
