Good, but the story is NOT an annotated work.By RichardWhile this is a good text of the original story By Poe, it is important to know that it is NOT "Annotated."While there is a separate book about Poe included with this, making well worth the price, the actual story is not annotatedwith additional

information, references, and historical information usually found within an annotated work. It is well worth the price, but it is mislabeled as an annotated text. 0 of 0 people found the following review helpful. Almost seems you are there....By esteban cisneros The very first sentence sucks you into the story. It is a short story of revenge. I honestly didn't find anything to dislike. A story of fiction but it does describe, in my opinion, the darkness of humanity. Most human beings would not dare act this story out. But I'm sure lots of us have imagine scenarios at one point in our lives where we would like to play it out in reality. 0 of 0 people found the following review helpful. Great job By Customer This is one of my favorite stories. The translation was great. I love the way the translations have hyperlinks. I think all dual language kindle books should be set up this way.

Edgar Allan Poe's classic tale of horror.
