This is the best one in many years. About eight of the months have photographs that I love, whereas other recent years have had only two or three that I really liked. This 2016 calendar is more like much earlier ones, featuring mostly very pretty tea settings and fewer novelty or weird ones. I highly recommend this calendar for those who love beautiful china. The tea information provided each month is always interesting. 0 of 0 people found the following review helpful. Beautiful teapot pictures By Customer Our family really likes to collect teapots, drink tea, and bake! 1 of 1 people found the following review helpful. nice informative narratives on the right had side to get ... By Jlynh So cute, nice informative narratives on the right had side to get your brain thinking and beautiful pictures. I love the sets and details. Sadly the only month I didn't happen to like was my birth month one oh well.

It's as comforting and cherished as the tradition it upholds. Each month, The Collectible Teapot Tea Calendar invites the reader to sit down to a beautifully arranged teatime setting spread with delectable sweets and nibbles, fresh flowers, and—the centerpiece of the table—a gorgeous vintage tea set. Pour from an early Delft pot at a Dutch farmhouse table, complete with waffles and honey. A teapot designed to mark the coronation of England's King

George V, alongside scones and Union Jack flags. And a Victorian Valentine tea set—ideal for an afternoon spot of tea with the apple of your eye. Accompanying the full-color photographs are delicious nuggets of history and lore from House Beautiful executive editor Shax Riegler.
