NOT a gunsmiths book so don't be surprised if it doesn't provide the detail you are looking for.0 of 0 people found the following review helpful. Decent BookBy Master HahnDecent book on a more obscure, limited audience topic. Some limitations present.0 of 0 people found the following review helpful. Does not include schematics i.e. Exploded viewsBy MKM OhioI do not recommend this publication, it has more firearms but does not include exploded views , i.e. Schematics. The earlier edition is great to have, I purchased both with the idea that this one would have more information in it, but in fact, it has less. The earlier edition I am talking about is the 1981 edition. I am skeptical about purchasing the lastest and will

have to research it before I buy.
